Meet your 'next level' hydration bottle

Titanium. Strong.
Lightweight. Beautiful.

OUT PACIFIC
NORTHWEST

Why Titanium?

Titanium properties make it essential when it comes to naval ships, missiles, aircraft, spacecraft and armor while you're having it in your bag as a water bottle.

Titanium Properties

Strong and light

It's among the strongest and most durable metals on the planet. Titanium is also lightweight. For example, it is 45% lighter than steel but equally strong. It means that you can take more while the weight remains the same.

Lightweight and durable titanium items are what you need when backpacking.

Titanium cookware can be used both on the go and in the "home - work - home" mode with coffee shops encouraging customers to bring their own disposable cups.

Durable

It has high rust and corrosion resistance not only to water but also to chemical media, and an ability to withstand extreme temperature. All of these make it highly durable and long lasting whether used indoors or outdoors.

Friction and heat resistance make titanium cookware perfect for outdoor cooking on fire.

Sustainable consumption is gradually changing attitudes towards many everyday things like plastic bottles, even reusable ones. Titanium is environmentally friendly and long lasting.

Biocompatible

It is non-toxic and not rejected by the body, so it has many medical uses, including surgical implements and implants.

Titanium impacts no smell and taste to stored liquids.

Titanium cookware is safe to use with hot beverages like tea, coffee or mulled wine.

OUT Titanium Bottle

Product details

-  **Capacity:**
600 ml / 20.3 oz
-  **Weight:**
160 g / 5.6 oz

Product description

A 3 pcs titanium flatware set includes a spoon, fork and knife to make your meal outstanding whether it is a picnic, camping or a big journey. It also helps you care for the environment when you choose to use this set instead of plastic utensils at the nearest cafeteria.

A carabiner is included to keep the items together and a storage pouch that won't let the utensils damage other items in your bag.

Proposal

OUT™ is a brand originated in Portland, Oregon. We believe that building a local retail network will help our businesses be more profitable and our communities thrive. Now we are looking for cooperation with retailers and marketplaces that are enthusiastic about a healthy and environment friendly lifestyle.

We are proud to offer a line of outdoor products that can elevate your brand through technological and biocompatible solutions.

What is special about OUT titanium products?

- **Marketing potential:** relatively new to market, growing demand
- **Local spirit:** can be bought as presents or souvenirs from Oregon
- **Compactness:** light and small, easy to keep in stock
- **Price:** economically efficient as selling units
- **Promotion capabilities:** cross marketing opportunities with OUT team, sufficient marketing materials
